<input type="checkbox"/> Fever	<input type="checkbox"/> Myalgias	<input type="checkbox"/> Vomiting	<input type="checkbox"/> Headache
<input type="checkbox"/> Malaise	<input type="checkbox"/> Abdominal Pain	<input type="checkbox"/> Diarrhea	<input type="checkbox"/> Sore throat
<p>Date(s) & approximate time(s) that symptom(s) started:</p>			

Health Assessment

Evaluators: For symptomatic persons who present in outpatient settings, 1) don available PPE, 2) isolate individual in a private room, and 3) immediately contact ISDH. Limit individual's movement and contact with others.

Thermometer use: Forehead thermometer strips may be used. If an oral thermometer is used, clean with a disposable wipe, soak in disinfectant for 10 minutes, and let air-dry after use.

Temp: _____ °F

- ☐ This person traveled to Guinea and/or Sierra Leone in the past 21 days. He/she denies risk factors for exposure to Ebola virus and has no symptoms.
1. Local health department will monitor person for symptoms twice daily for 21 days via Skype or in-person
